SUMMARY

Junior Frontend Engineer experienced in building responsive React applications using **TypeScript and Tailwind CSS**, with hands-on experience delivering dashboards, authentication flows, and data-driven UI components within **MERN-based systems**.

SKILLS

Frontend: React • TypeScript • Tailwind CSS

Backend: Node.JS • Express.JS • REST APIs • Axios

Database: MongoDB • MySQL

DevOps & Tools: Git/GitHub • CI/CD (GitHub Actions) • Azure Board • Trello • Jira

Methodologies: Agile (applied in company project)

WORK EXPERIENCE

Kore Business Solutions | AUG 2025 – NOV 2025

Junior Software Developer Intern | Hybrid

- Built a responsive MERN-based admin and learning platform using **React, TypeScript, Tailwind CSS, and Recharts**, implementing dashboards, authentication flows, role-based access, and course management features.
- Improved usability and performance by fixing mobile and tablet responsiveness issues, refactoring layouts, and adding skeleton loaders for smoother data loading across devices.
- Applied structured development practices using **Git version control, modular component architecture, semantic versioning, and iterative feature delivery** in a startup-style environment.

Education

CTU Training Solutions | Diploma in Systems Development | 2024 | Duration: 2yrs | GPA: 4.0/4.0
